

Clearing Browser Cookies

If you don't know your browser version, you can find out using whatbrowser.org.

It is not necessary to delete all cookies, only cookies with the word **simplicity** in them (in most browsers you can search for specific cookies by keyword).

Chrome

1. Click the Chrome menu  on the browser toolbar.
2. Select **Settings**.
3. Click **Show advanced settings**.
4. In the **Privacy** section, click the **Content settings** button.
5. Click **All cookies and site data** to open the Cookies and Other Data dialog.
 - To delete all cookies, click **Remove all** at the bottom of the dialog.
 - To delete a specific cookie, use the search bar to find the cookie(s) you're looking for, then click the **X** that appears on the right corner.

Firefox

Instructions on how to remove cookies for various versions of Firefox can be found on [Mozilla support](http://mozilla.org/support). Select your operating system and browser version to see detailed instructions.

Internet Explorer 9 & 10 – Windows

1. Click the **Tools** button .
2. point to **Safety**, and then click **Delete browsing history**.
3. Select the **Cookies** check box, and then click **Delete**.

Internet Explorer 8 – Windows

1. Go to **Tools > Internet Options**.
2. Click on the **General** tab and then click the **Delete...** button.
3. Select the **Cookies** check box, and then click **Delete**.

Internet Explorer 7 – Windows

1. Go to **Tools > Internet Options**.
2. Click on the **General** tab and then click the **Delete...** button.
3. Click the **Delete cookies** button.
4. Click the **Yes** button.
5. Then click the **Close** button, followed by the **OK** button.

Safari 5 & 6 – Mac

1. Choose **Safari > Preferences**, and then click **Privacy**.
2. Click **Details**.
3. Select one or more websites from the list, and then click **Remove** or **Remove All**.
4. When you finish removing websites, click **Done**.
