COVID-19 Trends

We all been working extensively over the last few weeks to minimize the spread of COVID-19 throughout the community. Below you will find the latest trends in regard to the admission, testing, and discharge rates for our COVID-19 patient census.

We have had a total of 312 patients under investigation (PUIs)

240 patients tested **NEGATIVE** for COVID-19

72 patients tested **POSITIVE** for COVID-19
***12 were seen & discharged through the ED**

Of the 72 positive cases, **60** were admitted.

Out of the 60 admitted patients, 40 were discharged and 20 remain in-house.

We are extremely proud of the diligence that our staff has demonstrated during this crisis. We thank their professionalism in wearing and appropriately using their personal protective equipment (PPE), not only when dealing with their patients, but also in keeping their colleagues and families safe.
