## COVID-19 Trends

We will be working diligently to get the latest statistics regarding COVID-19 patients. Below are this week's newest numbers, (the last report was sent out was on May 15 for reference).

We have had a total of 729 patients under investigation (PUIs)

588 patients tested **NEGATIVE** for COVID-19

141 patients tested **POSITIVE** for COVID-19  
**\*34 were seen & discharged through the ED**

Of the 141 positive cases, **106** were admitted.

Out of the 106 admitted patients, 101 were discharged and 5 remain in-house.

During this COVID-19 pandemic, our health care workers continue to remain selfless, spending long hours in PPE, and combating the frontlines every day. Thank you for your continued diligent practices and the hard work that you do. These efforts have allowed us to remain intact as an organization and as health care facility. We would not be here without you and the work every department does every day. As an organization we continue to see a slowing in the COVID-19 impact on our community, and you are a large part of that slowing. Please continue these strong practices and commitment to our community, our families and to each other.
